

CRESCENDO™/L2 G3

Processor Upgrade Card for "Upgrade-challenged" Power Macintosh® Computers

Key Features:

- ▶ G3 speed at a low price
- ▶ Several performance choices
- ▶ 100% compatible with existing hardware and software
- ▶ Three-year limited warranty

G3 Performance

Sonnet™ brings the G3 revolution to previously "upgrade-challenged" Power Macintosh and Performa® computers that were built with no processor upgrade slot. Through innovative engineering, Sonnet has designed the Crescendo/L2 G3 to be a "plug-and-play" processor upgrade card that installs into the L2 cache slot of the computer. The Crescendo/L2 G3 incorporates the revolutionary PowerPC™ G3 processor and ultra, high-speed Level 2 backside cache.

Mac OS 9 Compatibility

The Crescendo/L2 G3 seamlessly integrates with your system software supporting System 7.5.3 up to the latest innovations and enhanced performance of Mac® OS 9.1 (as of January 2001).

Simple Installation

The Crescendo/L2 G3 installs in minutes with step-by-step, illustrated instructions. Simply install the Crescendo software, open your computer, then insert the upgrade into the Level 2 cache slot.
